INIZIATIVA CO-FINANZIATA CON FSE

Salve!

Mi chiamo

Simone Tugnetti

Sono un programmatore mobile alle prime armi e questo che vado a presentare è **Anobii Cover Suggestions Engine**.

In cosa consiste?

Si tratta di un'applicazione mobile **Android** nativa, sviluppata in **Kotlin**, che permette il suggerimento di immagini di copertina di libri verso una piattaforma specifica.

Quale piattaforma?

Si tratta di un social network dei libri chiamato **Anobii**, del quale **Ovolab S.r.l** ne è il proprietario.
